Political Changes in the South. present political condition of the is indeed contradictory. Men prostain sentiments, yet hate others for opinions exactly like their own. The Republican party triumphed. No evil has resulted from colored sufrage And now the Democratic papers declar enselves to be in favor of Universal Sufgo, and virtually adopt the platform of Republican party.

But they still keep up their outcries inst the Republican party for doing the w thing which they themselves are doing. They still attempt to incite the people last the Republican party because i a the colored man his rights, yet prothemselves anxious to do the same thing. This glaring inconsistency upon the part the Democratic leaders has been noted by

They say "if our papers are right now, as claim to be, the Republicans must have n right from the beginning, and our leaders ve deceived us."

Hence they are leaving the sham Demoey in large numbers.

Another thing is also exciting the attenon of the people. They have been told by Democratic papers, and by Democratic pullers and stump speakers, that the Republican party is a proscriptive party. They have not before reasoned the matter but have, without examination, accepted as true the statements of the Democratic

Late events, however, have opened the eyes of the people to the falsity of such They see that the Republican party is not

The attempt of the sham-Democracy to be half Republican will not save it. The people wisely think that, if half Republicanism is so good, whole Republicanism is much bet-Therefore, while the Democr. ers go half-way-towards the Republican party, the people go the whole way, and the leaders are left without followers.

When the Democratic papers are ashamed to call themselves Democrats, and wish to be called Liberal Republican or Conservative Republican, it is evident that the Democratic party is dving.

The Nashville Banner, the leading Comercial journal of Tennessee, expresses the sinion that the election of ex-Presiden huson to the United States Senate, at this ime, would be a public calamity to the whole people of the State; and this opinion forcibly expressed by a friend that was e first to defend, and the last to abandon Andy in his fruitless controversy with Congress, it echoed quite generally through the more sagneious and influential Democratic papers of the State. Poor Andy.

The Tarboro' Southerner denies that it has ever announced itself in favor of "Universal Suffrage and General Amnesty," but avers that it came out for "Universal Suffrage and Universal Amnesty." This is a distinction without a difference. Yet the Southerner claims that "it is the distinction which makes the difference between Radicalism and a more liberal spirit of Republicanism. The former, upon which the Southerner has distinctly coupled its adherence to Universal Suffrage, declares that the political disa bilities of every white man shall be removed at once and forever; while the latter, upon which the Radicals take their stand, is intended to prevent Thirty Thousand white North Carolinians from ever holding office

In this State !! The ideas of the Southerner are badly ned up. In the first place, the word uni ersal means "pertaining to the universe," and therefore embraces all men. Yet the Southerner declares that it wishes the political disabilities of every white man removed. leaving it to be inferred that it does not wish the disabilities of the colored man taken away, "But," the Southerner would say, "the blacks have no political disabilities to be removed." Very true. Then there is one class which is disabled and another which

Some DIFFERENCE.-We learn that the Judges of the Supreme Court made an esti-mate that their decision in the late railroad cases would reduce the taxes to be paid 27 cents from the gross amount. But the Public Treasurer in his Circular issued to the sheriffs, states the deduction at only 81 cents. This is a wide difference and might be well enough to inquire into,-States

The above paragraph is copied by nearly every paper in the State. We have before stated that the Governor and Council examned the decision of the Supreme Court in the University R. R. case, and concluded that it relieved taxes to the amount of 84 cents. This interpretation was concurred in by every Justice of the Supreme Court. Acting upon it, the Public Treasurer issued the circular above referred to. If persons attempt to evade the payment of the tax, they will only involve themselves in useless trouble and expense. Papers that have copied the item from the American may save their readers some trouble by publishing this statement.

GRAVEL WALLS,-James Harris, Esq., is building a store house on the corner of Martin street on his lot opposite the Baptist Grove, and using what is called "gravel" or "concrete" walls. He assures us the cost will be far less than brick; and the experience of builders is that it is more durable than common brick, besides being more ornamental when neatly finished. A mixture, made of granite rock, broken into small fragments and mixed with pieces of brick, and the proper quantity of lime mortar, is put into a bottomless box of the thickness have become hardened, and the moulds are port is corroborated by white men, citizens slipped up to the top and again filled. Thus the wall goes up a foot or two daily. The outside is at last plastered with cement, and neatly pencilled, giving the walls the appearance of being built of cut stone; and they are almost as durable. Workmen are employed upon it daily, and persons who desire to see the process of construction, in view of future building of their own, should call at

THE COMMISSIONERS for building the Pen-

tentiary have been in session in this City for several days past, Mr. G. W. Welker, one of the Board, having just returned from a tour of inspection through the principal Penitentiaries in the Northern States, Important business has been transacted at this meeting. They have employed as Architect, Major Levi T. Schofield, of Ohio, a gentleman of ability and celebrity in his profession who is now engaged on several public buildings and State institutions and has in his employ the most accomplished draftsmen n this country of European education. Major Schofield is recommended not only for his proficiency in his profession, but also for his sterling integrity and high-toned character as a gentleman; and we think the Committee peculiarly fortunate in securing the services of such a man. The drawings,

plans, &c., will be furnished at an early day. Mr. W. J. Hicks, of this City, has been appointed Assistant Architect and Superintendent of the building. He is a gentleman well known in this community for his superior capacity as a master mechanic and builder, of undoubted probity and purity of character. This is considered an excellent

appointment. Proposals for four millions of brick ar advertised for in our columns to-day. The outside and main walls of the building are to be built of a very fine and durable granite, found on the spot, the quarry for which is partially opened; but many of the interior walls will be built of brick. The lumber and materials are on the grounds for the erection of the stockade and temporary buildings for the prisoners, while employed on the main building. Work will be commenced immediately upon these temporary buildings, and they will be ready for the reception of the guests of the State in about

It is proposed to build the penitentiary 600 feet in length, and finish it in the best and most durable manner, with the most approved internal arrangments; and the architect estimates that the total cost will be about \$500,000, not, in any event, to exceed \$600,000. The gentlemen comprising the board, and the architects employed, are zealous to perform their duty for the best interests of the State, and we have no doubt that under their supervision a first class ble cost the State.

ANOTHER BRUTAL MURDER IN JONES County.-Another murder was committed in Jones county Monday evening about 6 o'clock, which for barbarism, cowardice and fiendishness is only equalled by the murder of Sheriff Colgrove at the same place a few months ago. The murdered man is M. J. Shepard, an honest and industrious hardworking man. He came to this section of the country from the North several years ago, married in Chatham county, and has been a resident of Jones county about four years. He was last year a Justice of the Peace, and at the time of his death was one of the County Commissioners, and also s

Colonel in the militia. The circumstances of the murder are as follows: Mr. Shepard with four colored men was at work in a saw mill, belonging to the estate of the late murdered Sheriff Colgrove. About 6 o'clock the report of three guns was heard, and those who hastened to the scene of the murder found Mr. Shepard, badly shot in the small of his back, and through his head. He lived about fifteen minutes after the firing, but was in a dying state. One of the colored men Providence Bryant, was also shot, and badly wounded in the leg. He was standing near Mr. Shepard at

the time the firing took place. The Ku Klux approached the mill from the opposite side of the Trent river, and three of them were seen by a woman who lived near. Two appeared to be disguised, one was not disguised in any way and was a white man. As soon as they fired, which attracted her attention, they turned and run with their heads down and concealed them selves as much as possible. As yet they are at liberty.

Words cannot express the horror, and sense of shame felt by every decent man, that such things are allowed. We say al lowed, because if the sentiment of a large majority of the county was against such proceedings, they would not rest day or night till the vile wretches were brought to justice. We say plainly that such actions are a reflection on the county, and its citizens, Why is it that these murdered men are always Republicans? Why is it that when the edict goes forth, and the man dies he is never a Democrat? Let the Democrats of the county answer. A few weeks ago we stated that placards had been posted, warning Republicans to leave the county, and we were laughed at by the Democrats of the State who called it a canard. Does this look like it? No, it looks rather as if it was death for a man to live in Jones County and express Republican principles boldly and openly. No man will say that Mr. Shepherd was a bad man. He worked hard and was a good citizen, and he has been murdered by a band of men who have not the fear nor the love of the law before their eyes. A band which if the people of the county do not suppress and drive them from their midst the government should take the strongest measures

Information received late yesterday after noon from Jones County is to the effect tha two of the murderers have been captured and afterwards escaped, but not till the had been identified by their captors.

Deputy Sheriff Joseph Smith, Caswell Askew, John Stanley, Fred Taylor and -Gilbert, and other citizens, all white men, to gether with a detachment of the late Col. Sheperd's militia, started Monday night in pursuit of the murderers, and captured two white men, old residents of the county with faces blackened. Their names are Frank Nobles and John B. Bard. While returning to Trenton, and when within a mile of the village the prisoners sprang from their guards, and though they were fired at they made their escape. This reof Jones county. BURNING OF MILLS-HORRIBLE DEATH. We learn that the mills owned by Col. Jos. Cathey, situated on the east Forks of Pigeon River, Haywood county, were burned down last Saturday night. The miller, Mr. Geo. Bryson, perished in the flames. Colonel Cathey's loss is estimated to be upwards o \$10,000. Mr. Bryson was a poor man, and eaves a large family.

Borrowing Papers.-We receive frequent complaints from our subscribers who get their papers at country offices, that their STANDARD is often taken from the postoffice by persons who want to read it, but do no subscribe; and often when they call for it it is not to be found, or if found at all, it is nearly worn out or badly damaged by use. One writer thinks the postmasters have no authority to let matter, committed to the mails, go out of their hands to any but parties to whom it is sent or who are authorized to receive it. While we appreciate the annoyance to which subscribers are subjected, we are glad to know that so many persons read the STANDARD, and can see but one way out of the difficulty complained of. If every man who now reads the paper, will subscribe for it and lend it to his neighbors its circulation, which is now rapidly increas ing, will be more than double in a month and every reader will be better satisfied.

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1898, it granted 13,387 new policies, more than any other company, except the Mutual Life; received an income exceeding six million dollars, and had amiassed solki, securely and profitably invested net assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1899."
